2028_REC_OOPS using Java_Week 2_Q6

Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Maya, a student in an arts and crafts class, wants to create a pattern using stars (*) in a specific format. She plans to use a program to help her construct the pattern.

Write a program that takes an integer as input and constructs the following pattern using nested for loops.

Input: 5

Output:

```
*  
* *
```

```
* * *
* * * *
* * * * *
* * * *
* * *
* *
*
*
```

Input Format

The input consists of a number (integer) representing the number of rows.

Output Format

The output displays the required pattern.

Refer to the sample output for the formatting specifications.

Sample Test Case

Input: 5

Output: *

```
* *
* * *
* * * *
* * * * *
* * * *
* * *
* *
*
*
```

Answer

```
// You are using Java
import java.util.Scanner;

public class Main{
    public static void main(String[] args) {
```

```
Scanner sc = new Scanner(System.in);
int rows = sc.nextInt();

for (int i = 1; i <= rows; i++) {
    for (int j = 1; j <= i; j++) {
        System.out.print("*");
        if (j < i) System.out.print(" ");
    }
    System.out.println();
}

// Second half (decreasing)
for (int i = rows - 1; i >= 1; i--) {
    for (int j = 1; j <= i; j++) {
        System.out.print("*");
        if (j < i) System.out.print(" ");
    }
    System.out.println();
}

sc.close();
}
```

Status : Correct

Marks : 10/10
